Description

Citric Descale is based on an organic acid and is a safe and eco-friendly acid descaling agent. It is readily biodegradable and is safer to handle than most traditional mineral acid based descaling products. **Citric Descale can** be used in many situations to remove all types of common scale build up.

Directions for Use

DISHWASHING MACHINES - COMMERCIAL: Disconnect the detergent feed, then add 1/2 to 1 kilogram directly into the wash tank. Run 2-3 long wash cycles, then drain and refill the machine. Reconnect the detergent feed.

DOMESTIC DISHWASHERS: add 250gm and run a full cycle without the addition of any detergent powder.

KETTLES: add 100 grams per litre of water.

COFFEE MACHINES AND PARTS: add 30grams (2 tablespoons) per litre of water.

SHOWERS AND CERAMIC TILES: add 100grams per litre of water.
