## **Description**

**Instant Hand Sanitiser** is a liquid hand sanitiser. It is especially formulated for food handling, hospitality and nursing care.

**Instant Hand Sanitiser** provides a lasting barrier against all bacterial organisms and is a terminal sanitiser. The product minimises cross infection and eliminates the use of gloves.

## **Directions for Use**

Wash hands with a liquid hand soap and then thoroughly dry hands.

Apply "one pump dose" of Instant Hand Sanitiser to the palm of one hand. For complete protection, work into hands, between fingers and under fingernails.

**Instant Hand Sanitiser** will air dry immediately and no rinsing with water is required.

## **Safety Information**

**Instant Hand Sanitiser** is NOT classified as hazardous according to GHS criteria.

Please refer to the Safety Data Sheets (SDS) for full First Aid procedures before using this product.

**Packaging:** 500ml

**PFD Order CODE:**  
**257644**
