Product Name **ACTIVATE DISHWASH RINSE ADDITIVE**

Not classified as hazardous

Hazards from Combustion Products Water vapour, carbon dioxide. Incomplete combustion, after evaporation of water, may generate carbon monoxide.

Specific Methods In case of small fire/explosion use water. In case of major emergency use PPE: as required for other chemicals present.

Specific hazards arising from the chemical May show a momentary flash point at about 66 °C, but will not burn. In enclosed areas, vapours may collect in flammable or explosive concentrations.

6. Accidental release measures

Spills & Disposal Disposal of small spillages only. For large spillages liquids should be contained using sand or earth, and both liquids and solids then transferred to salvage containers. Residues should be treated as for small spillages. CAUTION: Before dealing with spillage take necessary protective measures, inform others to keep at a safe distance and, for flammable materials, shut off all possible sources of ignition. CARE! Spillages will be very slippery. If local regulations permit, mop up with plenty of water and run to waste, diluting greatly with running water. Otherwise absorb on inert absorbent, transfer to sealed container and arrange removal by disposals company. Wash site of spillage thoroughly with water. Ventilate area to dispel any residual vapours.
